

I am an XM radio subscriber and have used Channel 216 since its inception in the Detroit area. The weather and traffic reports are clear and concise. The format is standard and the reports are always accurate. It is by far the best weather and traffic report that I have listened to in over 20 years in the Detroit area. All other reports including "950 on the 8" are a distant second to the XM broadcasts. I do not want the broadcasts discontinued. They are a valuable asset that saves me time and money getting around the Detroit area. Let the other broadcasters find a way to improve their reports. For me, I will take 216 everytime.

One important side effect is that I do not have to listen to worthless political commercials every 3 to 4 minutes. XM radio is the best.
